<date>

1. What is Trade Tawarruq-i (TTQ-i) facility?

- ✓ Trade Tawarruq-i (TTQ-i) facility is to finance the purchase/ importation of goods against domestic or international trade Letter of Credit-i or Inward Bills for Collection-i or on Open Account basis. It enables you to settle payment in a convenient manner and facilitates convenient cash flow management. It also mitigates the issues of non-existence of underlying asset and to provide hassle free to the customer as the underlying asset has been identified upfront.
- ✓ This facility is design specifically (but not limited) to cater the following business scenarios:
 - a) Financing for provision of services (i.e. Installation);
 - b) Financing with staggered facility disbursement arrangement (i.e. financing of contract at pre-completion stage);
 - c) Financing of asset under construction;
 - d) Financing of intangible items, food and beverage, logistic, software, drawings, deposit payment as well as precious metal including gold and silver; and
 - e) Financing re-imburement

2. What is the Shariah contract/ concept applicable?

- ✓ This financing is under the Shariah principle of Tawarruq.
 - ✓ Tawarruq consists of two sale and purchase contracts. The first involves the sale of an asset by a seller to a purchaser on a deferred basis. Subsequently, the purchaser of the first sale will sell the same asset to a third party on a cash and spot basis
 - ✓ The mechanism of Tawarruq for this product is as follows:
 - ✓ (a) The customer purchases the commodities from the Bank on Murabahah contract at the Bank's Sale Price. In this arrangement, the purchase will be performed by the Bank as the customer's Purchase Agent.
 - (b) As the Sale Agent for the customer, the Bank shall then sell the commodities to a Commodity Purchaser at cost price. Proceeds from the transaction will be disbursed for customer's utilization.
 - (c) The customer is obliged to pay the amount due from the Murabahah transaction as per the agreed terms.
- "Commodities" means any commodities acceptable to the Bank e.g. palm oil, plastic resin, rubber, cocoa beans, soy beans, timber and metal (excluding gold and silver) traded at any commodity trading platform approved by the Bank. The purchase and sale of the commodity are performed based on the customer's mandate, where Bank as the Purchase and Sale Agent trades the commodities as made available and provided by

commodity providers subject to the Bank's prevailing policies.

Formula to calculate Selling Price and Profit Margin as per below:

$$SP = FV \left[1 + \left(\frac{r \times t}{36500} \right) \right]$$

SP = Selling Price
 FV = Financing value
 r = Financing rate
 t = Tenor of financing

Profit Margin = Selling price – Financing value

Illustration:

FV = RM100,000

r = 10%

t = 60 days

$$SP = 100,000 \left[1 + \left(\frac{10 \times 60}{36500} \right) \right]$$

= RM101,643.84

Profit Margin = RM101,643.84 - 100,000.00

= RM1,643.84
