- ✓ BCL-i facility is a revolving financing product designed for the Bank's Corporate, Commercial and Small and Medium Enterprise (SME) customers to cater for their working capital requirements. The facility is offered at variable rate where the monthly payment is calculated based on utilization amount by the customer and it may be varied from time to time based on changes to the Bank's base financing rate provided always the total installment amount shall not exceed the Bank's Sale Price.

2. What is the Shariah concept applicable?

- ✓ The Shariah concept used is Tawarruq.

A *tawarruq* consists of two sale and purchase contracts. The first involves the sale of an asset by a seller to a purchaser on a deferred basis. Subsequently, the purchaser of the first sale will sell the same asset to a third party on a cash and spot basis.

Tawarruq concept is further described as follows:-

Customer purchases the commodity from the Bank on Murabahah contract at the Bank's Sale Price. In this arrangement, the purchase will be performed by the Bank as the Purchase Agent for the customer. As the Sale Agent for the customer, the Bank shall sell the commodity to a commodity purchaser at cost price. Proceeds from the transaction will be credited for customer's utilization. The customer is obliged to pay the amount due from the Murabahah transaction as per the agreed terms.

"Commodity" means any commodity acceptable to the Bank e.g. palm oil, plastic resin, rubber, cocoa beans, soy beans, timber and metal (excluding gold and silver) traded at any commodity trading platform approved by the Bank. The purchase and sale of the commodity are performed based on the mandate of the customer, where the Bank as Purchase Agent and Sale Agent trades the Commodity as made available and provided by commodity providers subject to the Bank prevailing policies.

- ✓ The product structure for BCL-i is as follows:
